Job Description

Job Title: Regional Medical Affairs Specialist

About Us:

The company is a global healthcare organization at the forefront of advancing neuroscience and improving patient outcomes across Asia.

They are seeking an experienced Medical Affairs professional to lead regional scientific initiatives within the Central Nervous System (CNS) therapeutic area. This role offers the opportunity to shape medical strategy, collaborate with international stakeholders, engage renowned clinical experts, and support innovative evidence-generation programs across multiple markets.

Key Responsibilities:

- Drive regional medical strategy and scientific initiatives across Asia
- Build and maintain relationships with leading healthcare professionals and key opinion leaders
- Support evidence-generation activities, including real-world research and medical insights programs
- Lead scientific exchange through advisory boards, educational initiatives, and medical meetings
- Partner closely with regional and global cross-functional teams to ensure strong scientific alignment
- Contribute to the development and review of scientific materials and educational content
- Represent the medical organization at relevant scientific forums and industry events

Qualifications:

- Advanced degree in Medicine, Pharmacy, Life Sciences, or a related discipline
- Experience within Medical Affairs in the pharmaceutical, biotechnology, or healthcare industry
- Strong scientific communication and stakeholder engagement skills
- Experience interacting with healthcare professionals and external experts
- Ability to work effectively across countries, cultures, and cross-functional teams
- Exposure to neuroscience or CNS-related therapeutic areas will be highly advantageous

If you are passionate about scientific excellence and want to make a broader impact across the region, please click **APPLY NOW**

Do note that we will only be in touch if your application is shortlisted.
