Job Description

Position Highlights

- Global SAP S/4HANA project
- Hands-on Fiori development & improvement
- Work directly with overseas offices in English
- Exposure to BTP, AI, MDM & APIs
- Fully remote possible | Long-term project

Responsibilities / Tasks

Responsible for the operation, maintenance, and continuous improvement of SAP S/4HANA for overseas sales companies, supporting global rollout and standardization. The role involves collaborating with overseas locations in English and working across a broad range of areas, including Fiori/Launchpad, SAP authorizations, APIs, and emerging technologies.

- Operation, maintenance, and improvement of SAP S/4HANA for overseas sales companies
- Support for global rollout and standardization
- Coordination and communication in English with overseas offices
- Investigation, improvement, and development of Fiori applications / Launchpad
- Authorization management related to S/4HANA / Fiori / APIs
- Evaluation and implementation of new technologies such as BTP, AI, and MDM
- Support for requirements definition
- Basic and detailed design

Required Skills

Must-Have Skills & Experience

- Hands-on experience in Fiori development and improvement
- Experience in the design, development, and operation of SAP authorizations (roles and profiles)
- Practical experience with, or knowledge of and interest in, new technologies such as BTP
- Business-level communication skills in both Japanese and English (including experience coordinating and negotiating with overseas offices)

Preferred Skill & Experience

- Hands-on experience with SAP (S/4HANA, ECC 6.0, R/3, etc.), regardless of module
- Willingness to proactively learn, build knowledge, and grow over the long term
- Ability to communicate and coordinate effectively with others to ensure smooth project execution
