Role Overview:
We are looking for highly proficient multilingual content specialists to design realistic, context-rich scenarios and generate high-quality data for training next-generation AI systems. This role focuses on creating high-quality, user directive and corresponding outputs in the target language, while ensuring alignment with structured guidelines. This is a non-technical role suited for candidates with strong language skills and attention to detail.

What does day-to-day look like:

- Create and refine natural, high-quality queries in Japanese.
- Write expected outputs (in Japanese) that reflect correct and fluent responses.
- Translate key components into English to support internal validation workflows.
- Collect and reference supporting sources to ensure queries are grounded and verifiable.
- Follow structured guidelines to ensure consistency, quality, and alignment across all generated data.
- Collaborate with cross-functional teams to iterate on outputs and improve data quality.

Perks of Freelancing With Turing:

- Work in a fully remote environment.
- Opportunity to work on cutting-edge AI projects with leading LLM companies.
- Potential for contract extension based on performance and project needs.

Required Skills

Required Qualifications:

- Multilingual capabilities are mandatory (English and Japanese): Ability to read and write in English and Japanese with a high degree of comprehension skills.
- 2+ years experience with content writing, translation or localization.
- Ability to follow structured guidelines and work within defined workflows.
- Strong attention to detail and commitment to quality.
- Ability to work independently and manage tasks efficiently.

Preferred Qualifications:

- Bachelors degree or undergraduate in Engineering, Literature, Journalism, Communications, Arts, Statistics, or a related field. We are open to candidates who do not have a Bachelor's degree but have experience in the area.
- Experience creating datasets for LLMs (prompt writing, SFT, RLHF, eval benchmarks, red teaming, QA).

Offer Details:

- Commitments Required: at least 4 hours per day and a minimum of 20 hours per week, with 4 hours of overlap with PST.
- Engagement type: Contractor assignment/freelancer (no medical/paid leave)

- Duration of contract : 3 months (can extend).
- This role will require some overlap with UTC-8:00 (4 hrs/day) America/Los Angeles

Evaluation Process:

- Applicants must complete a language proficiency assessment (Japanese).
- Applicants will be reviewed by our team internally, and shortlisted candidates will be reached out for onboarding.
