Job Description

A US based equipment manufacturing company is looking for Senior Buyer as part of their expansion plan in Penang, Malaysia.

Job Responsibilities

- Manage direct and indirect procurement activities for assigned suppliers and commodities.
- Handle the full purchase order lifecycle, including order placement, expediting, rescheduling, cancellations, and invoice resolution.
- Coordinate ECR/ECO implementation and manage material returns per MRB procedures.
- Source and negotiate with suppliers to achieve the best cost, quality, delivery, and service.
- Build strong supplier relationships and monitor supplier performance.

- Proactively resolve supply chain issues and support sourcing and continuous improvement initiatives.
- Maintain accurate procurement data and ensure process compliance.

Job Requirements

- Experience managing outsourced manufacturing partners, contract manufacturers, and component suppliers, including supplier performance management and commercial negotiations.
- Hands-on experience with SAP, particularly MM (Materials Management) and PM (Plant Maintenance) modules
- Ability and willingness to travel locally and within Asia to support supplier development and business requirements.
- Bachelor's Degree in Business, Supply Chain Management, Logistics, or a related discipline preferred.
- Minimum of 6 years' purchasing or procurement experience within the semiconductor equipment manufacturing industry or a high-technology environment.
