Job Description

Job Summary:

Coordinates and leads BIM collaboration and clash detection initiatives during design and construction in a project according to the overall resources, timelines, and standards, in conjunction with the client requirements.

Key Responsibilities:

- Implement BIM execution plans and digital workflows for collaboration across architectural, structural, and M&E disciplines.
- Ensure all digital models comply with BIM standards and that BIM data is accessible to all project participants.
- Prepare standard architectural and structural shop drawings and have a solid understanding of key design principles.
- Generate 3D renderings and models using Revit, Twinmotion, and Lumion to support project design.

- Coordinate project design efforts, liaise with stakeholders, and assist in creating construction and as-built drawings.
- Lead BIM coordination meetings, document discussions, and follow up on project progress.

Qualification:

- Diploma / Degree in Architecture.

Requirements:

- At least 4 years of local experience in BIM implementation for architecture, structural, or M&E projects.
- Proficient in BIM LOD 400 to 500.
- Experienced in preparing detailed shop drawings (structural & architectural).
- Familiarity with ISO 19650 workflows and BIM modeling standards.
- Proficient in Autodesk Revit and Navisworks.

Working Location:

- Kulim site project.
- Accommodation will be provided by the company.
