Job Description

RESPONSIBILITIES

- Proficient in using Mastercam for CNC milling programming, including 3-axis and 5-axis machining applications.
- Machine operation: Operate machines according to established processes and ensure stable production operations.
- Work planning and management: Create and manage daily, weekly, and monthly work plans.
- On-site inventory management: Manage on-site inventory, including parts, finished products, and tools.
- Operation instructions: Prepare work instructions and procedures for machine operation and maintenance activities.
- Equipment maintenance: Perform regular equipment maintenance, inspection, and repair according to planned schedules.
- Support other departments: Provide support for JIG machining and repair of mold components for other departments.

- Other duties: Perform other tasks assigned by supervisors.

REQUIREMENTS

- Bachelor’s degree or above in Mechanical Engineering, Manufacturing Engineering, Mechatronics Engineering, or other related technical disciplines.
- At least 1 year of experience in Mastercam programming for CNC machining.
- Ability to communicate in conversational Japanese or intermediate-level English.
- Ability to read and understand technical drawings and specifications.
- Strong sense of responsibility, teamwork, collaboration, and ability to work effectively in a crossfunctional environment.

BENEFITS

- Working location: Long Duc Industrial Park, Dong Nai Province.
- Working schedule: Monday to Friday (7:45 AM – 4:30 PM, including a 45-minute lunch break).
- Company shuttle bus provided from Hang Xanh, Thu Duc, Bien Hoa, and Vung Tau.
- 13th-month salary and performance bonus paid twice annually.
- Professional training and career development opportunities within a leading Japanese manufacturing company.
- Stable, collaborative, and professional working environment.

ABOUT THE COMPANY

JAC’s client is a Japanese manufacturing company specializing in industrial automation components and equipment, including cylinders, valves, and automatic control devices. With ongoing expansion in Vietnam, the company offers opportunities to work in a professional manufacturing environment focused on operational excellence, continuous improvement, and long-term career development.
