Job Description

Company Overview

A leading Japanese multinational manufacturer specializing in advanced sealing technologies, fluid handling solutions, and semiconductor production-related products is seeking a Production Technician to join its growing operations in Batu Kawan, Penang. With a global presence spanning Asia, Europe, North America, and the Middle East, the company supports customers across the semiconductor, life sciences, chemical, energy, and advanced manufacturing industries through innovative engineering solutions and high-quality precision products. As part of its continued expansion in Malaysia, the company is looking for motivated individuals to support its production operations and contribute to the manufacturing of high-performance products used in critical industrial applications.

Key Responsibilities

- Cut, bend, shape, and assemble PFA plastic tubing according to customer specifications and technical drawings.
- Operate production tools, machinery, and heating equipment safely and efficiently.

- Perform measurements and inspections using basic measuring tools such as rulers and calipers.
- Inspect finished products for defects and ensure compliance with quality requirements.
- Follow production procedures, work instructions, and safety guidelines.
- Maintain cleanliness and housekeeping standards within the production area.
- Support manufacturing operations to achieve productivity, quality, and delivery targets.
- Comply with cleanroom procedures where applicable.
- Participate in shift work and overtime when required.

Requirements

- SPM, SKM, Certificate, Diploma, or equivalent qualification.
- Fresh graduates are encouraged to apply.
- Experience in production, assembly, manufacturing, or plastic processing is an added advantage.
- Cleanroom working experience is preferred but not mandatory.
- Ability to use basic hand tools and measuring instruments.
- Ability to read technical drawings and work instructions is an added advantage.
- Good attention to detail and quality awareness.
- Positive attitude and willingness to learn.
- Good attendance and commitment to safety practices.
- Able to work independently and as part of a team.
- Willing to work on rotating shifts and overtime when required.
