Job Description

Job Description

- Control daily production to meet the production plan, quality, and safety requirements.
- Supervise operators and ensure they follow work standards and company rules.
- Improve production processes, workflow, and production line layout.
- Improve productivity by reducing waste, downtime, and defects.
- Analyze production problems, find root causes, and take corrective actions.
- Prepare and maintain SOP, WI, Process Flow, PFMEA, and Control Plan, and support continuous improvement activities

Qualification

- Bachelor’s degree in Engineering.
- At least 3 years of manufacturing experience and 1 year at Supervisor level.
- Good knowledge of production processes, problem-solving, and process improvement.
- Knowledge of ISO 9001, ISO 14001, IATF 16949, or related standards.
- Good leadership and supervisory skills with English communication skills.
