Job Description

POSITION TITLE Farm Water Systems Maintenance Technician

POSITION SUMMARY

In this position, you will be responsible for ensuring the safe and stable operation of farm water supply systems through inspections, preventive maintenance, cleaning, repairs, and troubleshooting. This role supports a critical infrastructure that directly impacts livestock health and daily farm operations while maintaining a reliable water supply environment

RESPONSIBILITIES

- Perform daily inspections and periodic maintenance of water treatment and water supply equipment
- Inspect, clean, and repair water pumps, motors, valves, filters, piping, and water storage tanks

- Monitor and address pipeline leaks, blockages, pressure loss, and related issues
- Prepare and submit reports regarding inspections, equipment failures, repairs, and replaced parts
- Respond to emergency equipment breakdowns and operational issues
- Coordinate with external vendors and technical specialists when required
- Work closely with farm personnel to maintain a stable water supply
- Follow health, safety, and operational procedures
- Complete and submit daily work reports

QUALIFICATIONS

- High school diploma or equivalent
- Experience maintaining and repairing pumps, piping, water supply systems, or water treatment equipment
- Equipment troubleshooting and repair experience
- Basic knowledge of pumps, valves, filters, and piping systems
- Experience using tools for equipment inspection and maintenance
- Valid driver's license
- Basic computer skills including Email, Word, and Excel

PREFERRED QUALIFICATIONS

- Experience maintaining farm or ranch water systems
- Experience with water treatment or water purification systems
- Experience servicing pumps, motors, and control equipment
- Experience with piping installation and repair
- Knowledge of water quality testing and water treatment chemicals
- Bilingual proficiency in English/Japanese or English/Spanish

LOCATION Corning, California

WORKING HOURS 9:00 AM to 4:00 PM (1-hour lunch break)

WORK SCHEDULE

- 4 days per week, 6 hours per day
- Training provided during the initial onboarding period (approximately one month)
- Occasional early morning, evening, or weekend support may be required in the event of equipment issues
- Work schedule may vary based on farm operational needs

FLSA STATUS Non-exempt (eligible for overtime pay)

SALARY USD 20-25/per hour
