Job Description

Our client is a global company (HQ in USA), who are well established in the Digital Payaments / Payment processing services. In Japan, major clients include Matsumoto Kyoshi, Starbucks, AEON etc. retailing companies. Office location is in central Tokyo, and the company is expanding!

The role is part of our client's regional Pre-Sales team, supporting the adoption and expansion of its next-generation platform strategy. The position involves applying global best practices, capabilities, and technical standards across key customer engagements in the region, with a focus on driving platform adoption, revenue growth, and customer satisfaction.

The role is suited to an experienced Solution Architect with a strong understanding of designing, overseeing, and governing technical solutions for customers. The position involves translating business requirements into scalable, secure, and flexible architectures that align with our client's platform-led SaaS solutions.

Required Skills

- 8+ years in Solution/Enterprise Architect Experience

- Strong knowledge of cloud-native technologies, container orchestration, and major cloud platforms such as Kubernetes, GCP, and AWS

- Excellent communication skills

- Business Level English & Japanese (JLPT N2). Candidate should be able to communicate in a business level in both language, such as in a technical presentation & discussion, etc.

Company Description
