Job Description

Key Responsibilities

- Lead and manage overall production operations to achieve safety, quality, delivery, productivity, and cost targets.
- Develop and execute production plans, ensuring efficient utilization of manpower, equipment, and materials.
- Drive productivity improvement, yield enhancement, scrap reduction, and cost optimization initiatives.
- Lead problem-solving activities, root cause analysis, and corrective actions to improve operational performance.
- Implement Lean Manufacturing, Kaizen, and continuous improvement programs across production areas.
- Monitor and improve key manufacturing KPIs, including productivity, FPY, yield, OTD, and labor efficiency.
- Ensure compliance with quality systems, operational procedures, safety requirements, and regulatory standards.
- Develop and lead production teams through coaching, training, performance management, and change initiatives.

Qualifications

- Bachelor's Degree or higher in Engineering, Manufacturing, Industrial Engineering, or related fields.
- Over 10 years of manufacturing experience with proven leadership experience in production management.
- Strong background in Lean Manufacturing, Kaizen, Continuous Improvement, and operational excellence.
- Hands-on experience in productivity improvement, cost reduction, KPI management, and root cause analysis.
- Strong leadership, communication, problem-solving skills, and good command of English.
- Experience in a high-volume manufacturing environment with a strong focus on quality, efficiency, and continuous improvement.
