Job Description

Location: Hanoi City

Company Overview
A global technology company providing advanced telecommunications, digital infrastructure, and energy solutions for enterprise and carrier customers worldwide.

Job Responsibilities
Deliver technical support and engineering expertise for telecom power and energy infrastructure projects.
Provide solution guidance and implementation support to customers and project teams.
Coordinate with stakeholders to ensure project milestones, quality targets, and delivery schedules are achieved.
Identify, analyze, and resolve technical issues related to power systems and site infrastructure.
Support installation, commissioning, testing, and acceptance of power-related equipment.
Monitor project progress and proactively address risks, delays, and operational challenges.
Prepare technical reports, project documentation, and implementation records.
Ensure compliance with safety, quality, and engineering standards throughout project execution.

Job Requirements
Bachelor's degree in Electrical Engineering, Telecommunications, Energy Systems, or a related discipline.
Minimum 2 years of experience in telecom power, electrical infrastructure, or energy-related projects.
Strong knowledge of power supply systems, rectifiers, batteries, and site energy solutions.
Familiarity with power system design, operation, and troubleshooting.
Understanding of electrical standards and technical specifications.
Strong analytical and problem-solving abilities.
Good communication and stakeholder management skills.
Proficiency in Microsoft Office applications.
Ability to work in a fast-paced environment and manage multiple priorities.
Willingness to travel for project support when required.
English communication skills, both written and spoken.

Benefits
Attractive salary and comprehensive benefits package.
Performance-based bonuses and recognition programs.
Professional training, certification support, and career development opportunities.
International and dynamic working environment.
Exposure to large-scale technology and infrastructure projects.
Healthcare and insurance coverage beyond statutory requirements.
Clear career progression and growth opportunities.
Employee engagement, wellness, and team-building activities.
Monday to Friday working schedule.

Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding.
