Job Description

Scope of responsibility
In Japan, develop and implement strategies to address technical challenges when deploying Powerwall home battery storage systems and home EV chargers on a large scale.
Lead and drive product launches for products targeting the Japanese market.
Lead the way in addressing interconnection requirements for power grids and related laws and regulations, including the Fire Service Act, and promote the acquisition of various safety certifications necessary for obtaining subsidies.
Research and effectively communicate technical product requirements to product management teams in the US, Australia, and other regions.
To establish VPP services in Japan, I will be responsible for formulating technology strategies, creating planning documents, proposing and coordinating with overseas headquarters, and driving development through to execution (including customer education and policy/institutional coordination).
Review of technical documents translated into Japanese

Employee Benefits:
Health Insurance (健康保険)

Employees' Pension Insurance (厚生年金保険)
Employment Insurance (雇用保険)
Workers' Accident Compensation Insurance (労災保険)
Paid Annual Leave (有給休暇)
Statutory Rest Days / Holidays

Required Skills

Requirements (Application Requirements)
【Required Conditions】
Collaborative, team-oriented, and highly capable of leading cross-functional projects.
Prompt action and curiosity ? We are looking for individuals who are eager to learn, iterate, and improve quickly.
Possessing proactive initiative and high motivation, and the ability to manage diverse initiatives and internal and external stakeholders to implement the results of new applications.
Obtain a degree in Mechatronics Engineering, Electrical Engineering, Mechanical Engineering, Software Engineering, or a related field.
5+ years of experience in engineering/technical roles

[Desired conditions]
Experience developing products and applications in collaboration with members at overseas locations.
Excellent written and oral communication skills in English, particularly the ability to summarize important information to the point.
Practical experience in renewable energy (batteries, EVSE, solar power, etc.)
