Job Description

The Utility & Building Maintenance Supervisor role supports the efficient and reliable operation of utility systems, facility equipment, and building services within a food manufacturing environment. The position also plans maintenance activities, supervises the maintenance team, and helps maintain appropriate safety standards.

Responsibilities

- Ensure all utility and facility equipment operates efficiently and reliably to support daily operations
- Monitor utility usage and conduct routine building inspections to identify maintenance requirements
- Plan preventive and corrective maintenance activities and supervise the maintenance team
- Maintain safety standards and support the effective operation of mechanical and electrical systems
- Manage the inventory of spare parts and maintenance tools to ensure availability when required

Requirements

- Experience in utility and building maintenance

- Experience in the food manufacturing industry would be an advantage
- Knowledge of mechanical and electrical systems

About the company

A company in the food manufacturing industry producing seasoning products in Indonesia. The organisation operates within an international manufacturing network and supports the production of food ingredients for the market.
