Job Description

As an SRE in Tokyo, you will help maintain reliable technology services for a Technology & Telecoms organisation. You will work within the Technology department to improve service stability and support the day-to-day operation of systems.

Client Details

The organisation operates in the Technology & Telecoms industry in Tokyo.

Description

- Monitor system performance and availability to help maintain dependable services.
- Investigate service issues and work to restore normal operation in a timely manner.
- Improve the reliability of systems through practical operational improvements.
- Maintain clear operational documentation to support consistent service management.
- Review system behaviour and identify areas for improved stability and performance.
- Work with Technology colleagues to address operational needs and service issues.
- Help manage incident response activities and record actions for future reference.

Job Offer

- Permanent employment.
- Salary up to JPY 15000000.
- Location: Tokyo.

Please apply to discuss the SRE role in more detail.
