Job Description

As a Design Engineer / Supervising Engineer (Telecommunications), you will provide technical support for advanced wireless communication and data processing systems used in aerospace and satellite communication applications.

This role combines technical consulting, system design support, customer engagement, and after-sales service, working closely with customers and global suppliers to deliver high-performance solutions for mission-critical applications.

■Key Responsibilities
-Provide technical support for satellite communication, wireless communication, and aerospace-related systems.
-Support product demonstrations, technical presentations, and customer evaluations.
-Coordinate technical specifications and requirements with customers and suppliers.
-Respond to technical inquiries and provide after-sales support.
-Collaborate with overseas suppliers on technical discussions and project activities.
-Support installation, testing, and operational activities for communication systems.
-Contribute to successful project execution and customer satisfaction.

Employee Benefits:
-Competitive compensation package
-Performance-based bonus program
-Annual salary review
-Permanent employment
-Flexible working hours system
-Comprehensive social insurance coverage
-Opportunity to work with advanced satellite communication and aerospace technologies
-International and collaborative working environment
-Domestic and overseas business travel opportunities
-Professional development and technical growth opportunities
-Career advancement within a technology-focused organization
-Smoke-free workplace with designated smoking areas
-Overtime typically ranging from approximately 0?30 hours per month

Required Skills

-Experience in telecommunications system design, engineering, or related technical fields.
-OR holder of a Supervising Engineer (Telecommunications) qualification.
-Strong communication and teamwork skills.
-Valid driver's license.
-Ability and willingness to use English in a business environment.
-Customer-facing communication and problem-solving abilities.
