Job Description

COMPANY OVERVIEW

A leading regional hub delivering AI-driven digital transformation and smart-city solutions, enhancing security, efficiency, and quality of life across Asia Pacific.

JOB RESPONSIBILITIES

- Gather and analyze business and system requirements.
- Review functional, design, and interface specifications.
- Perform gap analysis, impact assessment, and requirements clarification.
- Analyze transaction flows, data mapping, and system integrations.

- Coordinate with business, IT, vendors, and regional stakeholders.
- Review solution designs and vendor deliverables.
- Support project governance, risk management, and reporting.
- Maintain project documentation and project status updates.
- Support Cash Management, Payments, and Transaction Banking transformation projects.

JOB REQUIREMENTS

- Degree in IT, Computer Science, Business, Finance, or related field.
- Atleast 3 years' experience as a System Analyst or Business Analyst.
- Strong knowledge of Payments, Cash Management, or Transaction Banking.
- Experience with requirements analysis, system design, and interface specifications.
- Knowledge of data mapping, APIs, integrations, and transaction flows.
- Experience in gap analysis, impact assessment, and solution review.
- Exposure to CMS, ISO 20022, payment modernization, or banking transformation projects is good to have.
- Familiarity with cloud, middleware, and system migration projects is good to have.
- Strong analytical, communication, and stakeholder management skills.
- Business-level English and Japanese proficiency (written and spoken) to communicate effectively with Japanese speaking clients and stakeholders.
