Job Description

Company and Job Overview
Our client is a pharmaceutical company focused on expanding its presence across ASEAN, with strategic growth plans in infectious diseases, hematology-oncology, chronic diseases, and vaccines. The Medical Science Liaison (Hematology-Oncology) will act as the scientific expert for the hematology-oncology portfolio, driving medical affairs initiatives, KOL engagement, scientific exchange, and launch readiness activities across Malaysia and Singapore.

Responsibilities

- Serve as the scientific expert for the hematology-oncology portfolio and provide accurate, balanced, and evidence-based medical information to external stakeholders
- Build and maintain strategic relationships with hematologists, oncologists, investigators, KOLs, and healthcare institutions across Malaysia and Singapore
- Support product launch and commercialization activities through medical strategy execution, market insights

gathering, and competitive intelligence

- Organize and participate in advisory boards, scientific meetings, congresses, medical education programs, and KOL engagement activities
- Support clinical research initiatives, including investigator-initiated studies (IIS), real-world evidence projects, feasibility assessments, and data generation activities
- Collaborate closely with Commercial, Regulatory Affairs, Market Access, Clinical Development, and regional/global teams to execute medical affairs objectives and business strategies

Requirements

- Bachelor's Degree in Pharmacy, Life Sciences, Biomedical Sciences, Medicine, or a related healthcare discipline; advanced qualifications such as PharmD, PhD, or MD are advantageous
- Minimum 3 years of experience in Medical Affairs, Medical Science Liaison (MSL), Medical Advisor, or a related pharmaceutical medical function
- Strong therapeutic area knowledge in Hematology, Hemato-Oncology, Oncology, Rare Diseases, or Specialty Care
- Proven ability to engage and influence Key Opinion Leaders (KOLs), healthcare professionals, and academic stakeholders through scientific discussions
- Excellent scientific communication, presentation, stakeholder management, and cross-functional collaboration skills
- Willingness to travel within Malaysia, and Singapore
- Applicants must be Malaysian citizens or hold valid work authorization
