Job Description

About the role
The EHS Coordinator role offers an excellent opportunity to support the implementation and continuous improvement of environmental, health and safety standards within a maritime operations environment. This position plays a key role in promoting a proactive safety culture, managing incident investigations and ensuring compliance with established EHS frameworks and procedures.

Key Responsibilities

- Coordinate and oversee EHS incident management activities, including incident reporting, investigation, root cause analysis, corrective action tracking, and closure follow-up.
- Monitor safety-related events and facilitate the communication of lessons learned and preventive measures across the organisation.
- Support the implementation and continuous improvement of risk management practices to strengthen safety performance.
- Promote a proactive EHS culture through training programmes, employee inductions, and ongoing stakeholder

engagement.

- Provide EHS guidance and operational support to both onshore and offshore personnel.
- Monitor compliance with EHS standards, procedures, and regulatory requirements to ensure operational excellence.
- Assist in auditing and verifying the effectiveness of EHS procedures and management systems.
- Identify gaps between client and internal safety management systems and support the development of bridging solutions to ensure alignment and compliance.

Requirements

- Class 3 Certificate of Competency with a valid Ship Security Officer (SSO) Certificate.
- Previous sailing experience as a Second Mate or a minimum of 2 years' experience in a comparable EHS, safety, or maritime operations role.
- Sound knowledge of maritime safety, environmental, and quality standards, including SOLAS, MARPOL, ISM Code, ISPS Code, ISO 14001, and OHSAS requirements.
- Proven ability to manage incident reporting, investigations, corrective action programmes, and root cause analysis processes.
- Strong understanding of EHS management principles and safety culture development.
- Effective communication, problem-solving, and stakeholder management skills.
- Ability to work collaboratively with both shore-based and offshore teams.

About the company
A company in the maritime services industry, this organisation supports offshore and marine operations with a strong focus on operational excellence, safety and compliance. As part of an established international group, it is committed to maintaining high standards across its operations while fostering a culture of continuous improvement and professional development.
