Job Description

A global healthcare company is looking for a Supply Chain Manager. The selected candidate will oversee supply chain operations, logistics costs, product availability, vendor contracts, and customer service activities.

A global healthcare company specialising in in vitro diagnostics. The company develops and provides diagnostic solutions that support hospitals and laboratories in delivering better patient care. With a strong focus on innovation and quality, the company is committed to advancing healthcare through reliable and efficient diagnostic technologies.

Keywords:

サプライチェーン, 物流, ロジスティクス, 求人, 外資系

Job Ref: YMX3KJ

Responsibilities:

- Ensure the continuous supply of key products
- Negotiate contracts with third-party logistics providers and other logistics vendors
- Manage projects and optimise shipment planning and execution
- Maintain accurate SAP records, particularly for new product onboarding
- Monitor freight expenses and track logistics profit and loss
- Lead and mentor team members, oversee task planning and execution, and manage customer service operations covering order entry and delivery arrangements

Requirements:

- Bachelor's degree or above
- More than 5 years of experience in logistics and supply chain or similar role (medical device industry is a plus)
- Experience in people management
- Proficient in MS Excel
- Excellent SAP skills
- Native level Japanese; proficient in English

Company Description

We've been a driving force in the Japanese bilingual recruitment market, providing high quality candidates for our clients and access to the best jobs for over 20 years. We operate a team-based profit share system which, we believe, sets us apart from the majority of competitors by enabling us to always put the interests of our clients and candidates first. That means we can find the best fit for employer and job seeker, and we never push people into unsuitable roles.
