Job Description

・Lead assigned production assembly teams to achieve Quality, Cost, and Delivery (QCD) objectives while ensuring operational efficiency and product quality.
・Set performance targets, implement action plans, and monitor results to drive continuous improvement across production operations.
・Facilitate problem-solving activities and quality improvement initiatives, promoting a culture of operational excellence and teamwork.
・Support workforce management activities, including team development, performance management, coaching, and employee engagement.
・Ensure compliance with Health, Safety & Environment (HSE) standards, proactively identifying risks and implementing measures to maintain a safe and productive workplace.
・Collaborate with cross-functional teams to optimize manufacturing processes, improve performance, and support business objectives.

Employee Benefits:
Opportunity to work in an international and multicultural environment with global collaboration.

Extensive training and development programs through a dedicated corporate learning platform, including both online and in-person learning opportunities.
Clear career development opportunities within a large global organization operating across multiple countries.
Inclusive workplace culture that promotes diversity, collaboration, and professional growth.
Exposure to global best practices, cross-functional projects, and international career opportunities.
Opportunity to contribute to sustainability initiatives and next-generation mobility technologies.

Required Skills

・Strong interpersonal and communication skills
・Strong analytical and problem solving skills
・Basic knowledge of Japanese health, safety, energy and environmental standards
・Knowledge and identification of environmental aspects and impacts
