Job Description

Hiring Position: Safety Officer

Location: Amata City, Chonburi
Working Days: Monday - Friday and Saturdays according to the company calendar
Salary: Negotiable

Job Description

- Ensure compliance with Thai occupational health, safety, and environmental laws, regulations, and company requirements.
- Develop, implement, and maintain workplace safety policies, programs, and procedures.
- Conduct workplace safety inspections, risk assessments, and accident/incident investigations, and follow up on corrective and preventive actions.
- Organize and deliver safety training, emergency drills, and safety awareness activities for employees.

- Coordinate with relevant government authorities and external organizations regarding occupational health and safety matters.
- Promote and foster a strong safety culture throughout the organization.
- Work closely with all departments to continuously improve workplace safety standards and operational excellence.
- Prepare and maintain safety-related documentation, reports, permits, and records in accordance with legal and company requirements.
- Support internal and external audits, inspections, and compliance activities related to occupational health and safety.
- Respond effectively to emergencies and unexpected situations, such as floods, fires, chemical incidents, or natural disasters, by leading coordination efforts, implementing appropriate countermeasures, ensuring employee safety, and supporting recovery activities.

Qualifications

- Bachelor's degree in Occupational Health and Safety, Environmental Science, Industrial Hygiene, Engineering, or a related field.
- Hold a valid Thai Safety Officer certification/license relevant to the company's operations.
- Strong interpersonal, communication, and teamwork skills.
- Ability to work effectively with employees and management at all levels of the organization.
- Good analytical, problem-solving, and decision-making skills.
- Able to work independently with a high level of responsibility and initiative.
- Experience in a manufacturing environment is highly preferred.
- Knowledge of Thai occupational health, safety, and environmental regulations is an advantage.
- Ability to respond effectively in emergency situations and manage crisis-related activities.
