Job Description

Our client specializes in Electronics component manufacturing business

Position: MGR II QUALITY (CH/JP speaking)
Salary: 150,000 - 180,000 THB
Location: Gateway Industrial, Chachoengsao

Key Responsibilities of the position:

- Approving department projects including the creation project deliverables. Reviewing project stage gates and proposals.
- Developing strategy roadmap, setting and tracking KPI metrics and cascading it down to the team; planning all resources (budget responsibilities, headcount) and schedules for functional and quality performance work.

- Leading, mentoring and developing mid to large scale teams to promote quality awareness and implement quality programs and initiatives.
- Managing and cascading staffing development and performance management programs for you and all quality staff; maintaining constructive relationships with all departments and external stakeholders; handling escalations at the Manager level and continuing escalation process if needed.

Qualifications required:

- Bachelor's degree in Engineering, Quality Management, or a related technical field.
- Minimum 8 years of Quality Management experience in a manufacturing environment, preferably within the Automotive, Electronics, or Semiconductor industries.
- At least 5 years of people leadership experience, managing and developing quality teams.
- Extensive experience in the automotive industry with a strong understanding of customer and quality requirements.
- Hands-on experience in molding, stamping, injection molding, or mechanical component manufacturing is highly preferred.
- Strong expertise in IATF 16949, VDA 6.3, and Automotive Core Tools (APQP, PPAP, FMEA, SPC, and MSA).
- Proven experience leading, implementing, and continuously improving Quality Management Systems (QMS).
- Solid experience handling customer complaints, quality audits, non-conformance management, and corrective/preventive actions.
- Strong knowledge of quality methodologies and problem-solving tools, including Six Sigma, CAPA, 8D, DOE, SPC, and Root Cause Analysis.
- Proven track record of driving Cost of Poor Quality (COPQ) reduction and continuous improvement initiatives.
- Strong stakeholder management, communication, and cross-functional collaboration skills.
- Ability to lead quality culture transformation and drive operational excellence across the organization.
- Good command of English with the ability to work effectively in a global environment.
- Chinese or Japanese language proficiency is highly preferred. Open to expatriate candidates.

Benefits:

- OT
- Uniform
- Perfect Attendance
- Meal Allowance
- Shift Allowance
- Transportation Allowance
- Housing Allowance
