Job Description

- Build and maintain sophisticated financial models to support strategic decision-making, business planning, M&A transactions and project finance engagements.
- Analyse business performance, revenue drivers and financial structures through quantitative modelling techniques.
- Develop integrated financial outputs, including three-statement financial models, risk-return metrics and other key performance indicators.
- Incorporate macroeconomic data, business assumptions and specialist inputs into financial model development.
- Conduct scenario analysis and simulations to evaluate business, investment and financing outcomes.
- Translate complex financial and operational data into clear insights for stakeholders and decision-makers.
- Collaborate with professionals across finance, valuation, accounting, tax and other specialist functions to gather and validate information required for modelling exercises.
- Support clients in enhancing decision-making processes and financial management capabilities through model-based analysis.

Employee Benefits:
Social insurance and statutory benefits in accordance with Japanese law. Additional benefits are available and can be

discussed during the recruitment process.

Required Skills

- Strong interest and motivation to build a career in financial modelling.
- Experience delivering financial modelling engagements within areas such as M&A, business planning, project finance or related disciplines.
- Ability to communicate effectively with stakeholders from different professional backgrounds and gather required information for analysis.
- Foundational knowledge of finance, valuation, accounting and tax.
- Business-level Japanese and Business-level English

Company Description
