Job Description

Company Overview

Our client is a new start-up precision manufacturing company. They are seeking an experienced IT Engineer to support IT infrastructure, network systems, ERP/SAP applications, and smart factory initiatives in a manufacturing environment.

Key Responsibilities

- Provide IT support for PCs, laptops, printers, mobile devices, and business applications.
- Manage and maintain Windows Server, Active Directory, Microsoft 365, email, file servers, and virtualization platforms.
- Support LAN/WAN, Wi-Fi, VPN, firewalls, switches, and network security.

- Assist in ERP/SAP implementation, integration, troubleshooting, and user support.
- Support manufacturing systems, barcode systems, label printers, and production-related IT equipment.
- Participate in smart factory projects including access control, visitor management, surveillance, and conference room systems.
- Ensure IT security compliance, system documentation, and infrastructure reliability.

Job Requirements

- Bachelor's Degree in IT, Computer Science, Computer Engineering, or related field.
- Minimum 3 years' experience in IT infrastructure, network support, or system administration.
- Strong knowledge of Windows Server, Microsoft 365, Active Directory, VMware/Hyper-V, TCP/IP, DNS, DHCP, VLAN, and VPN.
- Experience with Cisco, Fortinet, Aruba, MikroTik, HP, or similar networking technologies.
- Manufacturing industry experience is preferred.
- Certifications such as CCNA, Microsoft, CompTIA, SAP, or ITIL are an added advantage.
