Job Description

Our client is looking for QA Manager to lead the Quality Assurance (QA) department for the company's medical-grade plastic products based in Nhon Trach, Dong Nai.

Responsibilities

- Establish and maintain production quality management systems in compliance with ISO 9001, ISO 15378, ISO 14001, and ISO 45001 standards.
- Oversee the setup of laboratories, develop inspection systems, draft standard operating procedures (SOPs), and manage operational controls.
- Manage the Quality Assurance (QA) team, organize training, and conduct performance evaluations for staff.
- Handle quality assurance activities (in coordination with the Group and clients).

- Manage complaints, etc.

Requirements

- At least 5 year of experience in Quality Assurance (QA).
- Proficiency in English, Japanese language proficiency is a plus.
- Industry: Healthcare sector (pharmaceuticals, medical devices)
- Experience in independently planning and handling quality-related anomalies, as well as implementing corrective actions for non-conformities in accordance with established procedures.
- Ability to independently gather information and draft complaint reports.
- Experience working with audit teams/conducting audits.
- Understanding of quality management systems (e.g., ISO 9001, etc.).

About the company

Our client is a Japanese company with a manufacturing plant specializing in plastic products for medical use.
