Job Description

Position: Officer

Location: Sambhajinagar

Experience: 6 To 10 Years

Key Responsibilities:-

• Implement HSE plans, policies and procedures during factory construction, installation, commissioning and operations.

• Monitor civil construction, structural work, electrical installation, machinery erection, work at height, lifting operations, hot work and other high-risk activities.

• Conduct site inspections, risk assessments, safety audits and Job Safety Analysis (/MSRA/JSA/JHA).

• Implement Permit-to-Work (PTW), Lockout/Tagout (LOTO), PPE compliance and contractor safety management.

• Monitor & Conduct safety inductions, toolbox talks, workforce training and emergency mock drills.

• Ensure safe machinery commissioning, machine guarding, fire protection and emergency preparedness before factory handover.

• Monitor factory safety, occupational health risks, housekeeping, material handling and safe operating practices.

• Ensure environmental compliance, including waste management, pollution control and safe chemical handling, as applicable.

• Maintain statutory records, inspection reports, HSE documentation and compliance registers; coordinate with relevant authorities and auditors.

• Investigate accidents and near misses, identify root causes, implement corrective actions and report HSE performance to management.

• Participate & contribute to carbon neutrality goat of organization

Performance Metrics: - • Ensure statutory compliance, prevent workplace accidents, maintain contractor safety, close audit observations on time and establish effective HSE systems before factory commissioning and during regular operations.
