Job Description

・ Support end-to-end delivery of finance systems initiatives, from requirements through go-live and post-implementation support
・ Partner with Finance and Accounting to define and validate requirements across GL, postings, accruals, amortization, reconciliation, and reporting
・ Translate accounting rules and finance policies into clear SAP FI/CO functional requirements
・ Provide financial systems analysis and SAP Finance input to support key business and technical decisions
・ Coordinate with development and integration teams to ensure accurate, balanced, and compliant financial postings
・ Support finance-focused testing and UAT, validating balances, period-end processing, and report outputs
・ Build strong working relationships with Finance, Accounting, vendors, project teams, and partners
・ Follow required EHS policies and procedures and contribute to a safe, compliant work environment

If you know anybody who could be a good fit for the role, please feel free to refer them **here** until November 19th and earn 150,000JPY when we're able to place them.
