Job Description

【求人No NJB2416101】
■Background and Overview
GPI continues to expand their activities in the wind power industry with many projects under development both onshore and offshore. The WTG Group has also grown in the last year and now consists of four people supporting wind power projects across the entire lifecycle with a particular focus on Turbine Procurement Selection and Contracting in the development phase but including also general technical support for turbine matters in construction and operation.

■Main tasks: Turbine Procurement
・Leading turbine selection for onshore and offshore projects

・Acting as the main contact point for WTG manufacturers
・Responsible for WTG RFP process
・Preparing inputs to financial modelling
・Driving load analysis by the supplier
・Development of technical requirements

◯Using applied turbine knowledge to support the activities listed below within GPI
・Layout design
・Certification activities
・Mgmt of WTG Supplier during construction phase
・Technical support during operation
・Lead negotiation of Turbine Supply Agreements and Service Agreements
・Ensuring risks during construction and operation are reduced
・Managing interface risks to other contractors（BOP Civil/Electrical）

◯Lead negotiation of Turbine Supply Agreements and Service Agreements
・Ensuring risks during construction and operation are reduced
・Managing interface risks to other contractors（BOP Civil/Electrical）

◯Lead new technology implementation projects to improve GPI’s commercial position

◯Contributing to GPI’s broader commercial strategy

Required Skills

■Minimum
・Master of Science/Engineering/Mathematics
・3 Years Wind Industry Experience in a Techno Commercial Role
・Strong written and spoken English language skills

■Preferred
・Experience with Project Management Software
・Technical wind turbine knowledge across sales construction and/or operation phases
・Japanese language
・Contracting Experience
・Able to multitask effectively
・Ability to communicate with a wide range of people in different areas

Company Description

・クリーンエネルギー（主に風力発電）による発電を含む発電事業全般・クリーンエネルギー事業を対象とするファンドの組成、運用、管理、証券化業務
