Job Description

Infrastructure Project Manager

Role Overview

We are seeking an experienced Infrastructure Project Manager to lead and manage core technology infrastructure projects, including infrastructure implementations, cloud migrations, and on-premises infrastructure deployments. We are looking for someone based in India, Hyderabad preferred.

The ideal candidate will have hands-on experience managing projects across both cloud and traditional infrastructure environments, including hardware, servers, and networking. A strong understanding of both physical infrastructure and cloud technologies is essential for this role.

Key Responsibilities

* Lead end-to-end delivery of core IT infrastructure projects, ensuring successful implementation within agreed timelines and budgets.
* Manage cloud migration projects, including migrations between different cloud platforms and environments.
* Oversee infrastructure implementations across both cloud and on-premises environments.
* Coordinate server, network, and hardware infrastructure deployments, including switches and other networking components.
* Manage project stakeholders, technical teams, and third-party vendors to ensure successful project delivery.
* Identify and manage project risks, dependencies, issues, and timelines.
* Ensure infrastructure solutions meet business requirements and technical standards.

Required Experience & Skills

* Proven experience as an Infrastructure Project Manager, delivering core IT infrastructure projects.
* Experience managing cloud migration projects, including migrations between different cloud platforms.
* Strong understanding of both cloud and on-premises infrastructure environments.
* Experience with physical infrastructure, including servers, networking equipment, switches, and hardware implementations.
* Understanding of network infrastructure and server environments.
* Ability to manage cross-functional technical teams and multiple stakeholders.
* Strong project management, communication, and organizational skills.

Key Candidate Profile

The ideal candidate will bring a combination of cloud and traditional infrastructure experience. Candidates with exclusively cloud-based project management experience may not be suitable, as practical exposure to physical hardware, server, and network infrastructure is an important requirement for this position.

Contract Details:

* Start Date - January 2027

* Contract length - 6 months initial with extension

* Rate - based on experience
