Visa Sponsorship Support available

Lead complex transformation engagements for discrete and process manufacturers while helping grow a consulting practice. You will combine client advisory and commercial leadership with hands-on oversight of projects from strategy through implementation.

Responsibilities

- Develop new consulting opportunities, build client relationships and turn business needs into proposals and services.
- Lead complex business, operational and IT transformation engagements for manufacturers.
- Oversee project delivery, quality, risk and client communications.
- Build and mentor consulting teams and contribute to consulting methods, knowledge sharing and industry events.

Work Conditions

- Client visits and business travel may be required depending on the project.
- Relocation and visa sponsorship support are available. Eligibility is subject to confirmation.

Apply through CareerCross.

Required Skills

Required Qualifications

- Professional consulting experience and strong practical IT knowledge.
- Specialist expertise in at least one area of discrete or process manufacturing.
- Ability to apply industry expertise to business transformation.
- Strong communication and stakeholder management skills.

Preferred Qualifications

- Experience in project management or leading consulting engagements.
- Experience managing complex projects and cross-functional teams.
- Experience delivering business transformation in manufacturing.
