Location Kanagawa, Tokyo or Osaka, Japan

Job Type Permanent full-time

Work Style Hybrid with flextime

Career Level Manager

English Basic literacy, approximately TOEIC 500 level

Japanese Native-level proficiency preferred

Work with assembly and process manufacturers on business strategy, operational transformation and the use of IT. This manager-level role combines consulting delivery with proposal development. Clients include manufacturers in electrical,

electronics and machinery industries.

Responsibilities

- Advise clients on business and IT strategy, and help translate recommendations into implementation plans.
- Lead complex projects, manage risk and delivery quality, and keep clients informed.
- Build project teams, coach consultants and contribute to reusable methods and tools.
- Identify new client opportunities and develop proposals with colleagues across technology and engineering teams.

Work Conditions

- Client visits and business travel may be required depending on the project.
- Some projects involve collaboration with international colleagues.

Apply through CareerCross.

Required Skills

Required Qualifications

- Consulting experience.
- Practical IT experience and knowledge.
- Deep expertise in at least one area of assembly or process manufacturing.

Preferred Qualifications

- Project management experience.
