Job Description

Our client, well established MNC Based Company, looking for suitable candidates.

JOB RESPONSIBILIITIES

- Support the availability, performance, and reliability of IT infrastructure services, including end-user devices, workplace technology, network services, Wi-Fi, server infrastructure, and cloud-based platforms
  Provide first and second-level support for warehouse applications and systems such as WMS, SAP, WMS, and related logistics solutions, in collaboration with application support teams
  Install, configure, maintain, troubleshoot, and replace IT hardware and software, including laptops, desktops, printers, scanners, mobile devices, and warehouse technology equipment
  Support new site implementations, IT infrastructure deployments, technology rollouts, upgrades, and warehouse go-live activities

JOB REQUIREMENTS

- Bachelor's Degree or Diploma in Information Technology, Computer Science, Computer Engineering, Telecommunications, or a related field.
- Minimum 3-5 years of working experience in IT infrastructure, IT support, network administration, or a related technical role.
- Strong knowledge of enterprise network infrastructure, including switching, routing, wireless technologies, WAN/LAN connectivity, VPNs, and network troubleshooting.
- Experience supporting Microsoft Windows environments, Active Directory/Entra ID, DNS, DHCP, Group Policy, and user administration.
- Experience with Microsoft 365, endpoint management, hardware support, and workplace technology solutions.
- Experience supporting barcode scanners, RF devices, industrial PCs, label printers, and warehouse technology equipment is an advantage
