Job Description

Company Overview

Our client is an established chemical manufacturing company in Pasir Gudang, Johor. They are seeking an experienced and results-driven Supply Chain Manager to oversee and optimize end-to-end supply chain operations. This role will be responsible for sales planning and control, customer service, order fulfillment, procurement, logistics, warehousing, inventory management, and overall supply chain performance. The ideal candidate will possess strong leadership skills, a strategic mindset, and the ability to drive operational excellence while supporting business growth.

Key Responsibilities

- Oversee and support supply chain functions including sales planning, customer service, order processing, procurement, logistics, shipping, warehousing, and inventory management.
- Manage purchase orders, supplier performance, contract renewals, and supplier relationship management.
- Monitor inventory levels, stock accuracy, warehouse utilization, and material flow through SAP and related systems.
- Coordinate customer order fulfillment and logistics activities to ensure on-time delivery and customer satisfaction.
- Analyze procurement, sales, inventory, and operational data, preparing regular KPI and management reports.
- Drive process improvement initiatives to enhance efficiency, reduce operational costs, and improve overall supply chain performance.
- Ensure compliance with company policies, ISO standards, import/export regulations, customs requirements, and statutory guidelines.
- Manage departmental budgets, freight cost optimization, and cost control initiatives.
- Collaborate closely with internal stakeholders across sales, production, finance, and operations to achieve business objectives.
- Lead, coach, and develop supply chain team members to strengthen capabilities and performance.

Job Requirements

- Bachelor's Degree or higher in Supply Chain Management, Business Administration, Logistics, Procurement, or a related discipline.
- Minimum 10 years of experience in supply chain management.
- Proven experience managing suppliers, customers, contract negotiations, and cost optimization initiatives.
- Hands-on experience with ERP systems, preferably SAP.
- Good understanding of import/export regulations, customs procedures, and ISO compliance requirements.
- Strong analytical, problem-solving, and reporting skills.
- Excellent communication, negotiation, and stakeholder management abilities.
- Demonstrated leadership experience with strong people management and team development capabilities.
