Job Description

Company Overview:

Involved in the electrical heating products industry, with a focus on heating appliances and related products. The company is associated with the supply and distribution of heating products for residential and commercial applications.
Its business focuses on providing functional heating solutions while maintaining product quality, reliability and customer satisfaction.

Job Responsibilites:

- Assist in production planning, control and coordination.
- Gain hands-on exposure to production management and technical operations.
- Monitor production processes to ensure smooth factory operations.
- Work closely with different departments to support operational efficiency.

- Develop the necessary skills and knowledge to take on future leadership responsibilities.

Job Requirements:

- Open to fresh graduates and candidates with or without production management experience.
- Willing to learn and develop within the manufacturing industry.
- Good communication, coordination and problem-solving skills.
- Willing to undergo approximately 2 months of training at the company's factory in China.
