Job Description

Key ResponsibilitiesQuality Inspection & Process Control

- Lead and manage inspection activities at supplier factories, including incoming, in-process, and final inspections.
- Ensure inspection plans are executed effectively with accurate and timely reporting.
- Monitor production quality performance and identify quality risks throughout manufacturing processes.
- Conduct product testing and quality verification according to company standards and customer requirements.
- Review inspection results and provide recommendations for corrective actions.

Supplier Quality Management

- Work closely with suppliers to improve manufacturing capability and product quality.
- Drive corrective and preventive action (CAPA) activities and verify effectiveness of improvement plans.
- Conduct root cause analysis for recurring quality issues and implement sustainable solutions.

- Support supplier audits and quality assessments to ensure compliance with company standards.

Team Leadership
- Lead, coach, and develop the local QC team.
- Establish performance objectives, KPIs, and development plans for team members.
- Ensure efficient allocation of inspection resources and manpower planning.
- Foster a culture of accountability, continuous improvement, and quality ownership.

Cross-functional Collaboration
- Communicate quality performance, inspection results, and key quality concerns to regional and global stakeholders.
- Collaborate with Engineering, Product Development, Supply Chain, and Manufacturing teams to support product launches and ongoing production.
- Follow up production schedules and provide quality updates to relevant stakeholders.
- Support implementation of regional quality initiatives and best practices.

RequirementsEducation & Experience
- Bachelor's degree or above.
- Minimum 8 years of experience in Quality Control, Quality Assurance, Quality Engineering, or related functions.
- At least 3 years in a leadership or managerial position.
- Experience working with supplier factories and manufacturing environments.
- Experience in toy, furniture, consumer goods, or factory inspection is highly preferred.

Language Skills
- Fluent Vietnamese.
- Business English proficiency.
- Chinese communication skills are mandatory.

Technical Competencies
- Strong knowledge of quality management systems and manufacturing quality control.
- Experience in supplier audits, process control, CAPA, FMEA, and Root Cause Analysis.
- Strong analytical and problem-solving skills.
- Proficiency in Microsoft Office applications and quality reporting tools.

Personal Attributes
- Strong leadership and team management capabilities.
- Excellent communication and stakeholder management skills.
- Ability to work effectively in multicultural environments.
- Result-oriented with strong execution capability.
- Willingness to travel frequently within Vietnam and internationally.
