Job Description

Position Summary
The Safety Officer will be responsible for overseeing occupational safety, health, and environmental (SHE) activities within the manufacturing facility, ensuring compliance with legal requirements, company policies, and international management standards. This role requires strong knowledge of safety regulations, ISO systems, and the ability to conduct training and presentations for employees and management.

Key Responsibilities

- Ensure compliance with occupational safety, health, and environmental regulations and company policies.
- Monitor and improve workplace safety practices across manufacturing operations.
- Conduct risk assessments, safety inspections, investigations, and corrective action follow-ups.
- Coordinate and support ISO 14001 and ISO 45001 implementation, maintenance, and audit activities.
- Prepare safety reports, documentation, and presentations for management review.

- Deliver safety training programs, toolbox talks, and awareness activities for employees.
- Liaise with internal departments, external auditors, and regulatory authorities on safety-related matters.
- Promote a strong safety culture and continuous improvement in workplace health and safety performance.

Qualifications

- Bachelor’s degree in Occupational Health & Safety, Environmental Science, Engineering, or a related field.
- Experience in occupational safety and health within a manufacturing environment, preferably heavy industry.
- Strong knowledge of Thai safety laws and regulatory requirements.
- Practical experience supporting and participating in ISO 14001 and ISO 45001 audits.
- Intermediate English communication skills (listening, speaking, reading, and writing), with the ability to handle emails and documentation in English.
- Proficiency in Microsoft Office, particularly Excel (formulas and data analysis) and PowerPoint.
- Confidence in conducting presentations and training sessions for employees and management teams.
- Ability to work in industrial environments, including hot, dusty, noisy areas, and at heights when required.
