Job Description

A leading global data center company is seeking an experienced senior legal professional to join its growing legal team in Japan.

This is an exciting role within the legal team of a major data center company with a strong and growing presence in Japan. You will oversee legal matters for the company's Japan business, with business English used from time to time for communication with the global team. The company is on a strong growth trajectory and is expanding its legal function to keep pace with its expansion in the Japan market.

This role suits a legal professional who wants broad, hands-on exposure, rather than a narrow specialist track, within a fast-

growing infrastructure and technology environment.

We are looking for a candidate with:

* At least 10 years of experience in a legal department, in-house or at a law firm
* Qualified to practice law in any jurisdiction
* Broad working knowledge of Japanese corporate law
* Business-level English and native-level Japanese, written and spoken
* Experience in M&A, corporate development, or real estate is an advantage

Key Responsibilities

* Review, draft and negotiate contracts and handle general legal operations
* Support M&A, corporate development, and other strategic projects
* Hands-on working style in the legal function
* Manage corporate documentation and registration across all group companies
* Willingness to learn new legal matters and continuously improve

Why Consider This Opportunity?

* Join a stable global company with a strong growth trajectory in the Japan market
* Opportunity to be involved in strategic projects and business expansion
* Flexible working style, including remote work and flex time
* Supportive environment working alongside experienced legal professionals

This is one of several exclusive legal opportunities we're currently handling in Tokyo and the nearby areas.
