募集要項

What you will be doing

- Understand business requirements, and deliver features with high quality and speed

- Design, develop, test, and operate new user-facing features for large scale e-commerce systems
- Build reusable, flexible and perform code and libraries for future use
- To perform system improvement (e.g. refactoring, adopting appropriate technologies & system architecture, optimizing the JS performance with a proper optimization)
- Bring new and fresh ideas to the team
- Collaborate with other team members and stakeholders

Work arrangement

- Team/department dependent (4 times in office is preferred)

スキル・資格

Mandatory Qualifications

- Have good experience in using ReactJS, Redux, Typescript and Jest
- Proficient understanding of ECMAScript 6
- Proficient understanding of web markup, including HTML5, CSS3
- Good understanding of asynchronous request handling, partial page updates, and AJAX

Desired Qualification

- Proficient understanding of cross-browser compatibility issues and ways to solve them
- Proficient understanding of client-side scripting and JavaScript frameworks
- Experience in building upstream libraries
- Experience in building management UIs and/or portals
- Experience in back-end as well in at least 1 programming language
- Enjoy solving problems in the most efficient way while working in multi-cultural environments
- Coding as an art more than a tool
- Improve with the people around you while accepting given legacy system & rules
- Try to pursue an issue meticulously and not miss a thing with a careful attitude. Better safe than sorry.
- Not be fixated on ideally solution from technical perspective and come up with a realistic idea to meet business requirement
- Try to tackle proactively highly challenging issues and manage to get things done.
- Capacity to convince all stakeholders of choosing the best technical option in long-term and panoramic vision
- Have good experience in designing and creating good test cases for the code that you are working on

会社説明

About en world

en world is a group of recruiting consultancies specialising in professional and managerial roles. Operating from 3 countries, we support global companies' recruitment needs through our Asia Pacific network.

About en world Japan

en world Japan supports globally-renowned international and Japanese companies to hire professionals and managers. Our recruitment consultants specialise across both function and industry resulting in deep market knowledge and focused search results.

en world Japan was founded in 1999, operating as Wall Street Associates and specialising in financial services recruiting. We expanded our coverage and service in response to our customer needs. In 2010 we became a group company of en-japan inc., a leading internet-based provider of recruitment services in Japan.
