募集要項

Key Responsibilities:

- Establishing transparent and trust-based relationships with regional and in-country teams.
- Managing the growth and enhancement of the regional supplier network, including third-party partners (such as local architects and general contractors).
- Assisting, either directly or through Retail teams, in-store development projects, feasibility assessments, and cost estimations for store approvals.
- Providing budget and planning requirements that may impact the overall capital expenditure (Capex) investments.
- Supervising Store Roll-out Planning and ensuring that information remains current.

- Ensuring that projects adhere to agreed-upon plans, budgets, and design/quality standards, with clear and timely communication of project-related information, risks, and solutions.
- Collaborating with other retail departments when necessary (Retail Operations, Visual Merchandising, Merchandising).
- Leading key strategic projects and other branding initiatives to support store development.
- Conducting site visits to designated store locations during construction, while maintaining the integrity of the brand's concept.
- Undertaking additional projects as directed by the HQ Store Planning, Japan Retail Director, and CEO.

スキル・資格

REQUIRED SKILLS & COMPETENCIES:

- Good communication and interpersonal skills
- Experience in architectural /design programs such as AutoCAD, Photoshop, 3D, or similar; MS Office skill
- Minimum 8-10 years of relevant retail design and store development
