募集要項

- Product Strategy and Vision:
- -Craft a SaaS and B2C-centric product vision and strategy in alignment with company objectives.
- -Use market research, competitive analysis, and customer feedback to guide product decisions.
 - Product Planning and Roadmap:
- -Coordinate with teams to define clear product requirements.
- -Collaborate with engineering for timely product delivery, balancing scope and quality.

- Product Development and Execution:
- -Oversee the product development process, from conception to launch.
- -Promote agile practices for efficient product development.
- -Evaluate product quality, ensuring it aligns with customer expectations.
 - Stakeholder Management:
- -Work closely with internal teams to enhance product offerings.
- -Build relationships with external stakeholders for feedback and validation.
 - Product Performance and Optimization:
- -Monitor metrics and feedback for product improvement opportunities.
- -Lead product updates based on data and customer input.
- -Partner with marketing and sales for optimal product positioning.
