### 募集要項

#### About the company

We are currently looking for an Advanced Manufacturing Engineer to join a highly profitable international automotive company with operations in Japan. This company operates a state-of-the-art technical centre with complete product development capabilities.

**Who are you**

- ◆ You will have engineering experience in manufacturing operations (automotive industry preferred but not essential).
- ◆ You will be passionate about process optimization and continuous improvement methodologies

**Why apply**

- ◆ You will shape manufacturing excellence for premium automotive products.
  - ◆ Work with cutting-edge production technologies and methodologies.
  - ◆ Drive operational excellence in a world-class technical centre.
- 

**スキル・資格****Skills, Knowledge, and Experience in ONE or MORE of the following:**

- ◆ Engineering degree in a relevant manufacturing or mechanical field
- ◆ Professional experience in manufacturing operations (automotive preferred)
- ◆ Strong technical understanding and industrial engineering knowledge
- ◆ Business-level Japanese (N3+) for production floor communication
- ◆ Willingness to relocate to Kansai

**Experience in ONE or MORE of the following areas is desirable:**

- ◆ Knowledge of lean manufacturing, Kaizen, 5S, and continuous improvement
  - ◆ VE/VA (Value Engineering/Value Analysis) experience
  - ◆ 3D CAD skills and project participation experience
  - ◆ Conversational English and familiarity with quality systems
-
