募集要項

About the company

We are currently looking for an Advanced Manufacturing Engineer to join a highly profitable international automotive company with operations in Japan. This company operates a state-of-the-art technical centre with complete product development capabilities.

Who are you

- ◆ You will have engineering experience in manufacturing operations (automotive industry preferred but not essential).
- ◆ You will be passionate about process optimization and continuous improvement methodologies

Why apply

- ◆ You will shape manufacturing excellence for premium automotive products.
 - ◆ Work with cutting-edge production technologies and methodologies.
 - ◆ Drive operational excellence in a world-class technical centre.
-

スキル・資格

Skills, Knowledge, and Experience in ONE or MORE of the following:

- ◆ Engineering degree in a relevant manufacturing or mechanical field
- ◆ Professional experience in manufacturing operations (automotive preferred)
- ◆ Technical understanding and industrial engineering knowledge
- ◆ Japanese (N3+) for production floor communication
- ◆ Willingness to relocate to Kansai

Experience in ONE or MORE of the following areas is desirable:

- ◆ Knowledge of lean manufacturing, Kaizen, 5S, and continuous improvement
 - ◆ VE/VA (Value Engineering/Value Analysis) experience
 - ◆ 3D CAD skills and project participation experience
 - ◆ Conversational English and familiarity with quality systems
-
