募集要項

Tasks and responsibilities:

- Develop and implement IAM policies, standards and processes to ensure that access rights are granted and managed appropriately and consistently.
- Support the implementation of IAM tools and technologies, including Identity and Access Management platforms, Single Sign-On (SSO) and Multi-Factor Authentication (MFA).
- Develop and implement IAM projects and initiatives.
- Manage user account lifecycle, including account creation, update and deactivation according to business requirements and security standards.
- Conduct authorisation analysis and reviews to ensure access rights are correctly assigned and compliance requirements are met.
- Advise and support internal teams and stakeholders on IAM best practices, security policies and compliance

requirements.

- Conduct user training and awareness on IAM best practices, security and privacy.
- Assist in the resolution of IAM related issues and incident response activities.
- Monitor and evaluate IAM systems, processes and policies to drive continuous improvements and efficiencies.

スキル・資格

Anforderungen:

- Many years of project experience working with IAM technologies and concepts, such as user management, access rights management, single sign-on (SSO) and multi-factor authentication (MFA).
- Good understanding of IAM best practices, security standards and compliance requirements, especially with regard to data protection and access control.
- Experience working with IAM platforms or tools such as Azure Active Directory, Okta, SailPoint or similar solutions.
- Knowledge of programming or scripting (e.g. PowerShell, Python) is an advantage.
- Ability to work in a team and effectively in an interdisciplinary team.
- Excellent communication skills and the ability to explain complex concepts and requirements in an understandable way.
- Analytical skills and the ability to identify and analyse problems and develop solutions.
- Certifications in the field of IAM are desirable.
