### 募集要項

We are seeking a motivated Project Associate to join our consulting firm, which specializes in providing innovation services to technology companies and government agencies. The successful candidate will be responsible for supporting Project Managers to manage projects with better quality that drive innovation, from strategy development to execution. This role requires a good understanding of technology trends, project management methodologies, and the ability to work with diverse stakeholders.

### ABOUT CIC & CIC TOKYO

CIC builds and operates a global network of innovation campuses where startups, scale-ups, corporations and public entities connect, work, and grow. Founded in 1999, CIC manages more than 1.5M square meters of innovation-focused workspace, laboratories, and event space across North America, Europe and Asia. Additionally, CIC develops innovation-related programming, builds and enables industry clusters, and provides world-class innovation consulting.

CIC Tokyo is our first site located in Asia. Opened in October 2020 in one of the business districts of Minato-ku, CIC Tokyo is a one-of-a-kind innovation-oriented center in Japan with a total area of about 6,000 square meters on the 15th and 16th floors of the Toranomon Hills Business Tower. We provide a vast workspace with the capacity to house more than 250 companies. CIC Tokyo is centered on companies that aim to grow, and communities and services that are looking to accelerate their business growth and global expansion. Because of its influence in startup and innovation scenery, CIC

Tokyo has frequent visits of VIPs such as Prime Minister Kishida, Governor Koike, and other business leaders in Japan. It is now recognized as a prestigious center of new businesses and startups by business leaders throughout the country.

## ABOUT CIC INSTITUTE

CIC Institute, a division of CIC, specializes in building innovation ecosystems and supporting startups by leveraging CIC's extensive knowledge and global network. The Institute spearheads industry-specific communities to foster collaboration and drive practical applications through events, community building, and consulting projects. These initiatives aim to strengthen innovation ecosystems in key industries and geographies, such as deep tech, energy and environment, and life sciences.

## YOUR DAY-TO-DAY WORK

The Project Associate at CIC Institute will focus on strategically expanding CIC Platform influence and business operations in Japan. As a Project Associate, you will work with all stakeholders involved and will need to coordinate and liaise with all internal and external stakeholders based throughout the CIC network. This includes, but not limited to, expanding our projects to private sectors, creating new innovation clusters for industries across CIC network, expanding CIC Institute's market access services to new industries and the East Asian market, creating new innovation products and services that can scale throughout CIC network.

Potential responsibilities will include:

### Project Support & Coordination:

- Assist in the development and management of project plans, timelines, and budgets to support successful project delivery.
- Support the definition of project scope, goals, and deliverables in collaboration with senior management and stakeholders.
- Help monitor project progress, identify potential risks, and assist in implementing strategies to keep projects on track.

### Client Support & Relationship Building:

- Assist in drafting plans for new projects and support proposals to potential clients.
- Serve as a support point of contact for clients, ensuring clear communication and understanding of project objectives.
- Help build and maintain relationships with key stakeholders in technology companies and government agencies.
- Participate in regular meetings with clients to review project status and assist in addressing concerns.

### Team Collaboration & Learning:

- Collaborate with project teams, including internal consultants and external partners, to support project objectives.
- Contribute to a collaborative work environment that encourages creativity, innovation, and knowledge sharing.
- Learn from senior team members and seek opportunities to develop your skills.

### Quality Assurance & Reporting Support:

- Assist in ensuring that all project deliverables meet quality standards and client expectations.
- Support the preparation and presentation of regular project status reports to clients and senior management.
- Participate in post-project evaluations to learn from lessons identified and areas for improvement.

## スキル・資格

## ABOUT YOU

You are a professional with a complementary set of skills and style to represent CIC to prospective partnerships and support current clients at the highest levels of service. You are an articulate and ethical individual who has strong written and verbal communication, organizational skills, and time management skills.

As an ideal candidate you are highly detail-oriented and organized, with strong communication skills and the ability to effectively manage time and projects. You're personable, adaptable to fast-paced environments, and comfortable treating everyone equally, with a creative flair for innovating in marketing and community building. Most importantly, you enjoy researching up-to-date industry updates, cutting-edge technologies and the startup ecosystem.

More specifically, we are looking for someone who possesses the following characteristics:

- A motivated individual with a solid work ethic, eager to learn and capable of handling multiple tasks while maintaining attention to detail.
- Possesses good communication skills, with experience in creating presentations for potential customers.
- Familiar with working in teams and supporting partnership and stakeholder management, as well as community development efforts.
- Experience in assisting with project coordination in consulting environments, with some exposure to drafting business plans and proposals.
- Capable of supporting multiple projects simultaneously and willing to take on increasing responsibilities over time.
- Eager to gain a deeper understanding of innovation processes, technology trends, and industry regulations.
- 2+ years of project management experience, preferably in a consulting environment or related industry.

## YOU HAVE

- Developing project management skills with experience in supporting the implementation of cross-functional programs.
- Strong communication and interpersonal skills, with the ability to engage effectively with diverse audiences.

- Eager to support startups and contribute to innovation initiatives.
- Fluent in English and Japanese.

Expectations include:

- Strategic thinker with a proactive approach to problem-solving.
- Great communication skills and team work.
- Taking responsibility and ownership of assigned tasks.
- Exceptional leadership and team-building skills.
- Adaptability and resilience in a dynamic global business environment.

#### **OUR OFFER**

- Competitive salary, adjusted to match your experience.
- Permanent contract.
- Laptop and mobile phone as your working tools.
- Access to global CIC locations.
- Commuting / transportation allowance.
