

# CYIENT

## Circuit Design Lead engineer

### 募集職種

採用企業名  
CYIENT株式会社

支社・支店  
Cyient Japan

求人ID  
1491803

業種  
電気・電子・半導体

雇用形態  
正社員

勤務地  
神奈川県, 厚木市

給与  
400万円 ~ 1200万円

更新日  
2025年01月15日 10:00

### 応募必要条件

職務経験  
6年以上

キャリアレベル  
中途経験者レベル

英語レベル  
日常会話レベル

日本語レベル  
ネイティブ

最終学歴  
大学卒：学士号

現在のビザ  
日本での就労許可が必要です

### 募集要項

- Analog design expert responsible for overseeing, managing and hands-on design of the analog circuitry
- Experiences required
- Extensive industrial experience (15+ years) in the analog and mixed-signal integrated circuit design
- Solid knowledge of Analog circuit blocks: design of voltage/current references, amplifiers, comparators, filters, temperature and voltage sensors, oscillators, LDOs.
- Ensure compliance with industry standards and regulations, such as EMI/EMC and safety.
- Mandatory competencies
- Language: Fluency in English & Japanese, both written and spoken.
- Problem-solving skills: Able to solve problems and implement solutions autonomously.
- Social skills: Able to work in a global team.
- Tool skills: fluent in the use of Virtuoso schematic editor for circuit design, ADE Maestro (Assembler & Explorer) for circuit verification and knowledge of Spectre simulator. Ability to use Unix/Linux commands. Ability to use Microsoft Office software (Excel, PowerPoint, Word, Outlook). Experience using version control tools (Subversion)
- Able to do high-level system definition and derive block-level specification, based on the optimal performance trade-offs.

- Able to design various analog circuits from scratch based on a given set of specifications.
  - Able to support the verification team in debugging measurement and/or yield issues.
  - You have the drive to share your knowledge and look across teams to improve overall quality and execution.
  - Able to set layout constraints and verify layouts are meeting the desired quality.
  - Excellent critical thinking and problem-solving skills.
- 

#### スキル・資格

- Layout design experience
- Chip validation experience
- functional safety design and evaluation experience.
- Microsoft visio

Mandatory Skills : Problem Solving,Mixed-Signal IC Design,Design,Mixed Signal,Analog Circuitry,Circuit Designs

Desired Skills : Problem Solving,Mixed-Signal IC Design,Design,Mixed Signal,Analog Circuitry,Circuit Designs

Skills To Be Evaluated On : Problem Solving,Mixed-Signal IC Design,Design,Mixed Signal,Analog Circuitry,Circuit Designs

---
