### 募集要項

#### About AINEO :

AINEO's main product is CIRCLE Cloud Communications, which is a widely used cloud-based business telecom and communications service. CIRCLE allows hassle-free communications from any device (mobile, PC, tablet, laptop) and helps growing businesses to stay within reach despite the high mobility required in the job or the geographical difference between the users.

Our technology covers different aspects, including networking, cloud, machine-to-machine (M2M), security, professional services, and mobility solutions. CIRCLE is cloud-based VoIP (telephone), chat, video, collaboration, and much more.

**JOB OVERVIEW**

TRIBE Support Engineer manages the operation of our CIRCLE Cloud Communications SaaS/UCaaS service. This position will be working as part of a team to resolve issues in our partner clients' systems. AINEO has more than 500 clients nationwide who need their CIRCLE system to run perfectly at all times.

In short, AINEO is looking for a bright, quick, and flexible person with some technical acumen to join our team in Tokyo.

**Job Responsibilities:**

- Perform support and troubleshooting of CIRCLE system escalated from the Partner Service Representative team
- Conduct a thorough system investigation via server login or remote access to the client's system when necessary
- Escalate unresolved issues to L3 Support Engineers according to internal procedures and guidelines
- Partially involved in new deployment projects, to provide insights to ensure that the system will run smoothly

**Additional Information:**

- You will be joining a team of 4 people from diverse backgrounds and nationalities
- On-the-job training will be provided upon joining, where you will shadow a mentor to learn and put it into practice
- Personal growth is nurtured and encouraged in AINEO, our flexible internal mobility allows you to explore your passion and interest and pursue it within the organization

---

**スキル・資格****Must Have Qualification**

- Bachelor's degree (B.A.) from four-year college or university
  - ◆ Fresh graduates from Telecommunication Network and Engineering, Computer Science, Information Technology, or related technical fields are welcomed to apply
- Minimum 2 years of experience in the technical support role at Telecommunication or other related industries
- Good understanding of networks and cloud telephony
- Experience/knowledge in system administration (Linux, Windows, Active directory)
- Fluent level Japanese to communicate internally as well as with the clients

**Good To Have Technical skills**

- Technical experience with MS Teams
