### 募集要項

【Project detail】

This involves a new hire for a long term engagement.

Client (Banking) has a complex legacy ecosystem built upon various technologies which include for instance COBOL, C, VB/ASP.

The engagement would be to take the client as-is environment and over various projects (multi-year) uplift and modernize their entire stack.

Project period:3-4years

【Advantages of the position】

The candidate will have opportunity to lead a varied team of around 20-30 members including onsite and offshore, for multiple projects under the same engagement.

The client is one of the more prestigious Japanese investment banks that will offer a unique peak into a mixed American/European/Japanese experience.

【Career path】

Lead team of highly skilled professionals in global environment.

Prospect to grow into program management across different industries.

【Role】

- ・ Coordinate internal resources and third parties/vendors for the flawless execution of projects
- ・ Ensure that all projects are delivered on-time, within scope and within budget
- ・ Developing project scopes and objectives, involving all relevant stakeholders and ensuring technical feasibility
- ・ Ensure resource availability and allocation

Develop a detailed project plan to track progress

- ・ Use appropriate verification techniques to manage changes in project scope, schedule and costs
- ・ Measure project performance using appropriate systems, tools and techniques
- ・ Report and escalate to management as needed

Manage the relationship with the client and all stakeholders

- ・ Perform risk management to minimize project risks

Establish and maintain relationships with third parties/vendors

- ・ Create and maintain comprehensive project documentation

## スキル・資格

【Required skills】

- ・ 5 years of experience as a onsite Project Manager

Experience with legacy conversion

- ・ Solid technical background, with understanding or hands-on experience in software development and web technologies
- ・ Excellent client-facing and internal communication skills
- ・ Excellent written and verbal communication skills
- ・ Solid organizational skills including attention to detail and multi-tasking skills
- ・ Problem-solving and conflict-resolution ability

\*Language

- ・ Japanese skills are required to understand existing system specification and design documents
- ・ English skills are required to communicate with offshore

【Nice to have skills】

- ・ PMP or Scrum master certification is a plus
- ・ Experience in leading multiple projects
- ・ Web development background
- ・ Willing to manage Operation Projects
