募集要項

Seeking a Senior Business Analyst & Project Manager to lead the development of a state-of-the-art securities trading system for a confidential financial company. This role involves working closely with traders, financial professionals, and developers to gather and prioritize business requirements, and to ensure seamless collaboration between onshore and offshore teams. The successful candidate will oversee the project lifecycle, ensuring timely delivery of key system enhancements, and provide user support and training. Key responsibilities include managing timelines, facilitating communication across teams, and staying informed about industry trends and regulations. The ideal candidate should have extensive experience in business analysis within the financial sector, specifically in securities trading systems, and possess strong project management skills.

スキル・資格

- Bachelor's degree in Computer Science, Finance, or related fields.
- Proven experience as a Business Analyst in the financial industry, with a focus on securities trading systems.
- Project management experience overseeing end-to-end project lifecycles.
- Strong understanding of securities trading processes and middle/back office operations.
- Excellent communication and analytical skills, with the ability to work effectively with both technical and non-technical stakeholders.

- Familiarity with financial regulations and compliance requirements.
