募集要項

Who We Are:

Originally founded in Silicon Valley, USA in 1952, we've been a private, family-owned and operated business since 1969. We are humbled by the long-term relationships with our customers, earned through the packaging solutions we offer, including design, engineering, testing, manufacturing, and fulfillment of custom and stock packaging

Job Title: Packaging Engineer - Transpak Japan Job Summary:

We are seeking a talented Packaging Engineer to design, test, and optimize innovative packaging solutions. You will collaborate with global teams and clients, manage projects from concept to production and ensure high-quality results that meet industry standards.

Responsibilities and Duties:

1. Work internally with global design team and client to execute concept design, spec development, 2D and 3D, testing and validating, to volume production.

- 2. Search and study of new technology and material
- 3. Wood crate/ transport base/ assembly fixture design.
- 4. Travel to customer site for tool measurement.
- 5. Sourcing of materials in Japan and overseas.

## スキル・資格

#### **Requirements:**

- 1. Bachelor's or master's degree in mechanical engineering, packaging engineering, or related fields.
- 2. Experience in plastic design/ sheet metal design/ aluminum extrusion structure design / Carton box design.
- 3. Familiar with FEA(Finite Element Analysis) analysis is a plus.
- 4. 1+ years' experience in mechanical design with SolidWorks, AutoCAD or Siemens NX for solid model and drawing
- creation.

5. Good command of both Japanese and English.
